## Iconic Homestead Surrounded By Native Bushland... 'Highlands'

Nestled at the foot of the National Park and surrounded by 6-acres of native subtropical bushland with private walking trails, Highlands is a nature lover's dream. This newly renovated iconic island house features expansive living at its best.

Currently used as a private residence, this high-end dwelling's massive layout allows for individual long-term rental opportunities, or alternately could be re-listed as a registered Tourist Accommodation for optimal investment return. The diverse layout would additionally be suited for multi-generational living.

The ground-level features a giant-sized, fully fitted kitchen, a cozy lounge room with a slow combustion fireplace for cooler nights, a large function/living/dining room, and two powder rooms. Additionally, there is a self-contained apartment at the North end of the ground-level which includes 2-bedrooms, 2-bathrooms, a spa treatment room or study/office, and a private entry.

The upper-level with ocean views houses four king-sized bedrooms - each with their own ensuite and television, providing privacy and functionality.

The lower-level boasts a communal laundry, and a 1-bedroom, 1-bathroom self-contained apartment, plus a 1-bedroom, 2-bathroom self-contained apartment. This layout allows potential for someone to live on site and manage this beautiful accommodation property or provide generous options for visiting family and friends.
